

Onity OS600

OS600

Combination Guest Keycard Interface and Keypad Safe

This easy to operate model uses a 4-digit code in combination with the room keycard and provides increased security through an audit trail and a “Non-resident Master Code”.

The OS600 safe seamlessly interfaces with any Onity locking system; it features enhanced rental mode through keycard usage, and an optional PMS interface.

Electronic In-Room Safes A Real Service for Your Guests

In a time when expectations of a quality hotel stay are increasing, items that used to be considered special amenities are now expected by guests.

Today's travelers expect to find a safe in their room.

Onity's electronic in-room safes are designed with your guests' comfort, convenience and security in mind. Your guests will appreciate the difference of an Onity in-room safe and your staff will appreciate the ease of management.

Like all Onity solutions, our products are backed by a commitment to provide superior global service with local support.

Onity OS400

OS400 Digital Keypad Safe with Audit Trail

Loaded with features, this model provides increased security, including an audit trail and Portable Programmer unit with optional Portable Printer.

The user-friendly keypad has 4 or 6-digit code capability and is as easy to operate for you as for your guests. Increased security is provided through a “Non-resident Master Code”.

CEU Handheld Computer Emergency Unit

Equipped with a non-resident master code and password protected, this user-friendly tool with a large display can open the safe in any emergency as well as records the last operations from all safes on the property.

Onity OS200

OS200 Digital Keypad Safe with Audit Trail

One of Onity's newest electronic in-room safes. Its user-friendly operation coupled with a high level of reliability and functionality makes it an ideal safe for any application.
