

OS200 In-Room Safe with Keypad and Top-Opening Option

The Onity OS200 in-room safe is an excellent choice for hotels looking for a reliable safe designed to securely store laptops, tablets, purses or other valuables. A backlit LED button push is guest friendly, with 3, 4, 5, or 6-digit PIN code options.

The OS200 safe comes with front-opening door and is large enough to accommodate 15" laptops. It is also available in a top-opening design which can be easily hidden in a desk or side table, or mounted on a pedestal for in-closet installations. The OS200 safe is available in white or black and features an on-screen low battery warning, audit tracking, and mechanical key override.

OS200 safes are equipped with a safe on hold function. If an incorrect code is entered four consecutive times, the safe will enter a shutdown, or hold, status for a programmable number of minutes.

Features

- Guest friendly
- Easily installed
- Code to close technology
- Illuminated electronic keypad
- Safe On Hold function
- Top-opening option
- Key alike option

OS200

OS200 In-Room Safe with Keypad and Top-Opening Option
