

20 YEARS OF MOBILE CREDENTIALING EXPERIENCE

Over 20 years, we've built and enhanced our mobile credentialing platform from its origins in the real estate industry, bringing DirectKey technology to more spaces and industries. It's all part of Carrier's Healthy Buildings Program.

4 MILLION BLUETOOTH* LOCKING DEVICES DEPLOYED

The mobile credentialing platform powering DirectKey has been deployed in over 4 million Bluetooth locking devices across multiple industries—including hospitality, real estate, energy, and financial.

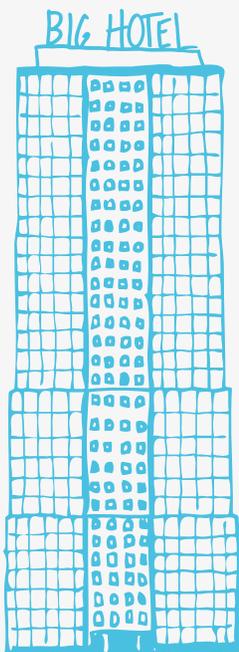

THE MOST DIRECT WAY TO 'GO CONTACTLESS.'

Onity offers multiple ways to seamlessly deploy mobile access at your property - whether you want to use our DirectKey app, integrate DirectKey into your loyalty app or integrate DirectKey with a third-party app.

ADVANCED SECURITY

The DirectKey system protects mobile key credentials using 128-bit AES encryption which provides an additional layer of security on top of locking system features such as user access permissions and audit trails.

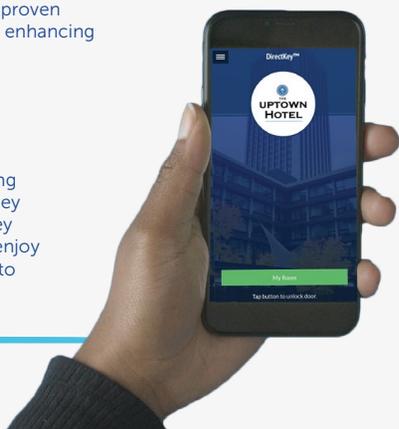

1,000,000 HOTEL LOCKS USE DIRECTKEY

DirectKey is already used in over 900,000 locks at some of the biggest properties across the hospitality industry, making it a proven solution for contactless access and enhancing the guest experience.

DIRECTKEY CAN UNLOCK ANY DOOR

Using cloud-based key credentialing and Bluetooth technology, DirectKey provides guests a secure mobile key on their smartphone, so they can enjoy a seamless journey—from parking to elevators to their room.

*Door openings with DirectKey since launch in 2015.
